b) Letter from NOSTRIL dated 12 January 1956 (copy attached)

c) Reply to NOSTRIL's letter (copy attached)

1. We have been keeping an eye on developments in [] immigration case. Reference (b) addressed to and received by [] was forwarded to us for reply.
2. On investigating, [] learned from the Consular office that [] has completed all necessary paper work and fulfilled all requirements for his immigration but is still being held up by difficulties in passing the physical examination. Apparently the difficulty concerning his arm has been resolved, either by his recovery or by the special affidavit tendered on his behalf. However, on the 12 visit of the I.R.P. examining team the USPH doctor discovered an unaccept. chest condition reflected in [] latest X-Ray plate. The doctor stated that [] has by no means been designated inadmissible but that nothing further would be done pending an opportunity to determine the exact nature of the condition. If the condition is found, on the next visit of the examining team, to be arrested or non-communicable, [] immigration will go forward.
3. The nature and extent of Headquarters' contact with NOSTRIL has not been explained to us, but we urge that if Headquarters is in a position to do so (if NOSTRIL is willing) Headquarters should take steps to forestall any further letters from NOSTRIL [] on []. These letters are not very secure and they only add to the myriad of minor problems which consume our time and distract us from more important matters.
4. We will keep Headquarters apprised of future developments as they occur.
